Art Unit: 1651

1. Receipt is acknowledged of the election filed June 02, 2003.
2. Claims 13-20 are pending in this application.
Claims 1-12 were previously cancelled.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 13-20 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Kim et al, U.S. 6,071,525.

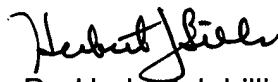

The reference teaches a method of employing a cosmetic composition, which contains the same ingredients within the ranges as claimed that inherently performs the same functions for the same uses as a cosmetic. Thus, the reference inherently meets the claimed limitations of the sodium magnesium silicate and renders the claims unpatentable over the disclosure of the reference, see formulation 4 in particular.

4. No claim is allowed.
